

## **What big companies don't want you to know!**

By

### **The Alarm Company**

It is amazing how many competitors and associated companies are in our industry that we come across on a daily basis. Many of these companies have lost their purpose in providing quality and affordable product and services. We want you to make the best decision possible...you don't have to trust us either. Just trust Google, here is how.

1. Go to [www.google.com](http://www.google.com)
2. In the search field type in: consumer complaints, XXXX
3. Replace XXXX with any company you want. For example, you can replace it with a large security company to see reviews about the company, complaints and just industry notes to see customer reviews and feedback from trusted websites.

Enjoy!
